Meeting With German Chancellor to  
Consider Settlement Arranged After  
Ten Day Session.

San Remo, Italy, April 28.—The Allied Supreme Council has closed its ten day meeting.

Each government taking part considers its aspirations measurably satisfied. The Premiers and Foreign Ministers met in mutual distrust. They part in great personal cordiality and with much more confidence in the future.

The declaration which the Council sent to Germany, in its intentionally harsh form, complies with the French attitude toward a defaulting creditor, while in substance it is an expression of the British policy, making it easier for Germany to pay through the Council's consent to discuss with the chiefs of her government the amount of reparation, and the willingness of the Allies to examine proposals.

A meeting between the Allied representatives and the German Chancellor, Dr. Mueller, will be held at Spa, Belgium, May 25.

In the closing hours the Council passed upon two notes to the American government, one explaining why President Wilson's latest Turkish note could not be followed and the other on the Armenian mandate and boundaries.

A new note to Germany was approved. This declares so soon as Germany reduces her forces in the Ruhr district to the number fixed in the agreement of August 8, the French troops will be withdrawn from the Frankfurt area.

The Council adopted the Franco-British declaration with regard to Germany after inserting a clause declaring its readiness to take all measures, even the occupation of additional German territory, if necessary, to assure the carrying out of the Treaty.

## REAL MEN ONLY

Every day I hear of men being laid off and having to look for a new job. Then they lose a week's pay finding one and have to pay their way to the place where this new job is located.

Why don't you get a regular job, one that you are sure of? Where? In the United States Marine Corps.

"Oh, yes," you say, "that is too regular a job. You can't quit it even if you want too."

Listen, Buddy. What makes you think you will want to quit it? Are you judging service in the Marine Corps by the kind of a time you had during the war or what some guy told you who couldn't make good? If you are, you are all wrong? There are openings for men in all lines of work in this outfit and if you have no trade we teach you one. We don't guarantee anything. That is up to you. If you are on the job you will get along well. If not you know what to expect. It's no bed of roses but it is a good place for a real man who is willing to do his little bit. So much for the duty end of it.

Then there is the other side. Marines go everywhere, see everything, (sometimes get a chance to do things no one but a Marine would ever even think was possible).

We have all kinds of athletics and we excel in them. You learn real soldiering in the Marine Corps and are hailed as an old timer by all who know, if you have a Marine discharge button.

What ever any other outfit can offer, we offer. Service on land sea or sky, at home or abroad.

Come up and see me about it before you look for a new job. I'll tell you straight what we can do for you and can back up my promise.

Sgt. U. S. M. C., 605 King St.

For Increase

## PRESENT TRAFFIC LAW

Would Limit Fire Apparatus to  
Twenty-Five Miles an Hour—Drink  
ing Fountain.

Permission was asked of City Council last night by the Alexandria County Lighting Company to increase its rates. The proposed increase will be on a sliding scale and average about one cent per kilowatt per hour. The matter was referred to the joint committee on finance and light.

It was set forth in the petition that the present rate has remained unchanged for the past thirteen years while the increased cost of operating and production has been doubled. As a result the company set forth that their profits are wiped out.

Councilman Lawler said it did not look fair to sell the city gas at a reduction and then give the lighting company permission to increase its rate.

Councilman Ruben favored hearing their side and also favored an increase in the price of gas.

A petition was read from the Rosemont Citizens' Association protesting against the erection of a bill board in that subdivision and a delegation of members of the association appeared and E. H. Kemper and Julian T. Burke set forth their objections, and asked that action be taken. The matter was referred to the joint committee on general laws and streets.

The street laborers petitioned for an increase of from thirty to forty cents an hour, setting forth that they cannot live on the present wages they receive. This was referred to the joint committee on streets and finance.

Resolution that the city make a temporary loan of \$10,000 to make repairs to the city gas plant and also to meet increased expenses for oil and coal was adopted, it being recommended by the joint committee on finance and light.

Richard Philpot submitted a bid for the removal of ashes and trash from the households. His bid follows: First year, \$10,000; second year, \$10,200; third year, \$10,400; fourth year, \$10,600; fifth year, \$10,800. This was referred to the joint committee on streets and finance.

A new set of traffic laws were presented and read by Councilman Fletcher and referred to the committee on streets. This committee will confer with the chief of police and fire chief at a meeting Thursday night relative to the laws and report on them at the next meeting of city council.

The law provides for a speed of 18 miles an hour and eight miles at crossings and twenty-five miles beyond residential sections. A speed of twenty-five miles an hour is fixed for the fire apparatus. It is provided that no motor vehicle shall come closer than fifteen feet to a street car when it is taking on or letting off passengers; all vehicles on right have right of way; no dazzling lights are permitted and loud signals also are tabooed. No one under sixteen years old is permitted to drive a car.

Bill of Corporation Attorney H. Noel Garner for \$254 from June 2, 1918, to December 30, 1919, was referred to the finance committee.
